Big Bear High School 2010-2011 Yearbooks

Last week the 2010-11 Big Bear High School yearbooks were distributed. After distribution began, it was discovered that the background of one of the pictures contained material that was inappropriate. Upon learning of this the school administration immediately stopped distribution and issued a recall of all the yearbooks that had been dispersed. The yearbooks are being edited and returned to the students who purchased them. A replacement page insert has been ordered and will be provided to all students with a yearbook. School and district administration are conducting an investigation into the matter and will take appropriate action based on their findings.
